

GAGAN SHARMA

Bengaluru, Karnataka

+91 7006387398 gagansharma11564@gmail.com GitHub LinkedIn Portfolio

Professional Summary

Data Scientist focused on **Machine Learning, Recommendation Systems, MLOps**, and production-oriented **AI systems**. Skilled in **Python, SQL, Scikit-learn, XGBoost, TensorFlow**, Pandas, and NumPy, with experience in exploratory data analysis, feature engineering, predictive modeling, and model evaluation. Built end-to-end ML and AI systems using **FastAPI, Docker, MLflow, CI/CD, RAG**, semantic retrieval, and **LLM-based generation**.

Skills & Technologies

Programming: Python, SQL, C++

Machine Learning: Scikit-learn, XGBoost, Classification, Regression, Clustering, Feature Engineering, Hyperparameter Tuning, Model Evaluation, Recommendation Systems, TF-IDF, Truncated SVD, Cosine Similarity

Deep Learning & AI: TensorFlow, Keras, CNNs, Deep Neural Networks, Computer Vision, RAG, LLMs, Semantic Retrieval, Cross-Encoder Reranking

MLOps & Engineering: MLflow, FastAPI, Docker, Git, GitHub Actions, DVC, CI/CD, Model Monitoring, Canary Deployment, Rollback

Data Science & Analytics: Pandas, NumPy, EDA, Statistical Analysis, Data Preprocessing, Data Cleaning, Data Wrangling

Databases & BI: MySQL, PostgreSQL, MongoDB, ChromaDB, Power BI, Tableau, Excel

Experience

Analyst Trainee – Savantis Solutions India Pvt. Ltd.

Dec 2025 – Jul 2026

Pfizer Project Team, HCL Technologies

Hyderabad, India

- Analyzed **operational data** using **Excel** and **SQL** for reporting, validation, and workflow management within the **Pfizer project**.
- Managed and validated study access records using **ServiceNow**, improving data accuracy and reducing manual data-handling effort.
- Contributed to a **22% reduction in data-handling time** through workflow and data-validation improvements, and built **Power BI** dashboards to monitor operational metrics.

Tester Intern – Wyreflow Technologies

Oct 2024 – Nov 2024

Software Testing Team

Bangalore, India

- Performed **functional and regression testing** across web applications and software workflows.
- Executed **50+ test cases**, validated **APIs**, and documented defects for resolution.

Data Scientist Intern – Learnbay

Jan 2024 – Sept 2024

Data Science Team

Bangalore, India

- Performed **EDA**, preprocessing, and feature engineering using **Python, Pandas, and NumPy**.
- Developed **ML models** and **CNN-based image classification** using **Scikit-learn, TensorFlow, and Keras**, achieving **92% accuracy**.

Projects

Customer Churn MLOps System | GitHub | Live API

- Built a customer churn prediction system using **XGBoost**, MLflow, FastAPI, Docker, and **GitHub Actions**.
- Implemented **CI/CD**, model quality gates, **drift detection**, and production monitoring for reliable model deployment.
- Designed **90/10 canary deployment**, candidate-vs-production evaluation, and automated **model rollback** for production recovery.

Enterprise Document Intelligence & RAG Assistant | GitHub | Live App

- Built and deployed a production-style **RAG application** using **FastAPI, Streamlit, ChromaDB, Sentence Transformers**, and cross-encoder reranking for enterprise document question answering.
- Implemented **Supabase authentication and multi-user workspace isolation**, ensuring document ingestion, retrieval, listing, deletion, and queries remain scoped to each authenticated user.
- Developed grounded **LLM generation** with source citations, **Gemini-Groq fallback**, document deduplication, lifecycle APIs, Docker, GitHub Actions CI, and **114 automated tests**.

E-Commerce Personalized Recommendation Engine | GitHub

- Built a **hybrid recommendation system** combining **TF-IDF content-based filtering** and **Truncated SVD collaborative filtering** on **904K+ user interactions**.
- Implemented **temporal evaluation**, **cold-start handling**, and Top-N ranking using **Precision@10, Recall@10, and Hit Rate@10**.
- Deployed the persisted recommendation engine through **FastAPI** and **Docker**, with automated API testing using **Pytest**.

Education

SDM College of Engineering And Technology

Dharwad, Karnataka

Bachelor of Engineering – Civil Engineering — CGPA: 8.05/10

2023

Certifications

Data Analysis – Cisco (2024) [Verify] **Python Programming – Udemy (2024)** [Verify] **Data Science (2024)** [Verify]
